Monthly Cleaning Tip

Microwaves can get dirty easily. Food can get overheated and the next thing you know, there is a sticky mess to clean up. Luckily there is an easy way to help loosen up the sticky or dried gunk.

Step 1. Fill a microwave-safe bowl and fill it about halfway with water.

Step 2. Add a tablespoon of white vinegar.

Step 3. Microwave on high for five minutes.

Step 4. Whip away with a paper towel or rag.

Step 5. If there is any remaining food, use Dawn Dish Soap and a wet rag to get the remaining food off.
