Monthly Cleaning Tip

Clean out the freezer.

This time of year is a great time to clean out the freezer.

Take all of the frozen items and put it in your sink, throwing out anything with obvious signs of freezer burn along the way (like grayish-brown spots and thick layers of frost). Empty all the ice cubes into your sink covering your frozen foods to keep them frosty while you chip the freezer clean. Empty all the ice cubes into your sink. Remove the built-up frost with your car ice scraper while also using small amounts of hot water. Clean up any slow-moving liquid spills. Now you can move on to the frozen food. If anything is open, it's probably best to ditch it!
